DEFICIT IN INDIA'S 1922 BUDGET NOW £23,000,000

Trade Depression And Labor Troubles, Cause

TAXES TO GO UP

Railway Fares Also To Be Boosted 25 Percent

(Reuter's Service)

London, March 2.—Trade depression, a poor monsoon and labor troubles have resulted in the anticipated surplus of 71 lakhs (7,100,000) of rupees being converted into a deficit of 34 crores ($40,000,000) in the present budget of India.

(Note—In terms of pounds sterling, this means that India's estimated surplus of £470,000 has been converted into a deficit of £23,000,000).

Sir William Mailey, the Finance member, in a statement in the Legislative Assembly, recommended an increase of 25 percent on railway passenger fares, the enhancement of the inland postal rates, and the increase of the income tax, the super tax and Customs.

The increased Customs duties, which are estimated to yield fifteen crores of rupees, embrace an advance of the ad valorem duties to 15 percent, cottons to 7½ percent, sugar to 25 percent, and machinery, iron and steel to 10 percent, as compared with 11 percent for ad valorem duties, 3½ percent for cottons, 15 percent for sugar and 2½ percent for machinery, iron and steel.

A new 5 percent duty will be imposed on imported yarn and the salt duty will be doubled.

Geddes To Visit Pacific Coast To Address Students

(China Press Service)

Washington, March 2.—Sir Eric Geddes, British Ambassador to Washington, is going to the Pacific Coast about the middle of this month for the purpose of addressing the University of California at Berkeley.

Sir Eric proposes to utilise the occasion of his first trip across the Rocky Mountains to visit the states of Washington, Oregon and California and to study the various ramifications of the sole outstanding diplomatic question pending between Japan and the United States, namely the California land law situation.

Canada Treaty Too One-Sided Says M'Cumber

(China Press Service)

Washington, March 2.—Senator McCumber, chairman of the Senate Finance Committee, today announced that he opposed the reciprocity agreement with Canada which, he understood, was being considered now. The Canadian minister of finance had proposed the new agreement when he was visiting in Washington.

Senator McCumber said that Canada had only farm produce to offer, of which the United States already had a surplus. He said that the United States offered Canada reciprocity in 1911, but the Canadian government refused it at that time.

Kiaochao-Tsinan R'way Mandate Out

(Reuter's Pacific Service)

Peking, Feb. 28.—The Ministry of Communications has informed General Ho Feng-lin, Military Commandant at Shanghai, that the Ministry of Communications, in cooperation with the other Ministries, recently petitioned the President to sanction private ownership of the Kiaochao-Tsinan Railway and that a mandate to that effect has already been issued. It is pointed out that this is in accordance with the wishes of the Chinese united Chambers of Commerce.

Gets Hays' Old Job

DR. Hubert Work, of Colorado, who was first assistant to Postmaster-General Hays, has been nominated to succeed his old chief.

(Reuter's Service)

Washington, March 2.—Mr. Work will succeed Mr. Will Hays as Postmaster-General.

Note.—This message probably refers to Dr. Hubert Work, the first Assistant Postmaster-General.

EGYPTIAN CABINET FORMED, ELECTION LAW IS PLANNED

Ministers To Draft Constitution In Near Future

(Reuter's Service)

Cairo, March 1.—Sarwat Pasha has formed a cabinet of a moderate nationalist complexion. The cabinet includes:

Wassif Melka, Minister of Communications; Mustapha Fathy, Justice; Jaafar Wali, Pious Foundations; Ismail Siteky, Finance; and General Sir Ibrahim Fathy, War.

The formation of the Sarwat Pasha Cabinet is evidence of the good effect of the British Government's declaration of policy.

Sarwat Pasha has sent a letter to the Sultan declaring that the real intentions of Great Britain are now clear and that the situation is now completely changed. The Cabinet considers that the national aspirations will be satisfied by an immediate declaration of independence and the fact that free and friendly negotiations will be held later for the discussion of guarantees.

The Cabinet will draft a constitution with the new electoral law, providing for the establishment of ministerial responsibility. The letter announces the creation of a ministry of Foreign Affairs.

Sarwat Pasha declares that he assumes full responsibility for the administration, and calls upon the nation to maintain peace and concord.

Cairo, Mar. 2.—In charging Sarwat Pasha to form a ministry, the Sultan said: "Britain's termination of the protectorate realises our dearest wishes and is the result of the national effort which we always encouraged and supported."

Sarwat Pasha pointed out the impossibility of forming a ministry as long as Britain maintained the policy outlined in November, but the new declaration, he said, had profoundly changed the situation.

It only remained for Egypt to demonstrate that there was no need to insist on guarantees affecting the country's independence as the good faith of Egypt and her own interests would constitute the best safeguards, Sarwat Pasha continued. The Ministry would immediately prepare for drafting a constitution conforming to the principles of modern public rights and do everything to hasten the establishment of a situation permitting the abolition of martial law.

London, March 2.—Dispatches from Cairo today reported that fresh disorders have broken out at Tanta, fifty-five miles north of Cairo. In a series of riots three were killed and twenty-four wounded, but order was finally restored by the native troops in the vicinity.

Russian Army Totals 1,200,000

London, March 2.—At question time in the House of Commons, Mr. Cecil Harmsworth said that the Government understood that the Russian standing army on January 1 totalled 1,200,000 men.

HITCHCOCK, DEMOCRATS' CHIEF, WILL FIGHT PACTS

Ranking Member Of Minority Tells Attitude

CHARGES SECRECY

Fate Of Conference Agreements Very Doubtful

(China Press Service)

Senator Hitchcock, who is ranking democrat in the Senate Foreign Relations Committee, said he would not support the treaty unless amendments or reservations were adopted to meet his objections.

It is expected that Senator Hitchcock's announcement will have a serious effect in impeding speedy endorsement of the treaty by the Senate. He has long been looked upon as spokesman for the minority party, and his fellow democrats are expected to follow his lead almost to a man.

(Reuter's Service)

Washington, March 2.—Senator Hitchcock today opened the debate in the Senate on the Four Power Treaty, declining to support the measure unless it was amended. He declared that it had been conceived in secrecy and that the origin of the text had not been disclosed.

"We know from the newspapers reports," Senator Hitchcock proceeded, "that Mr. Balfour brought over a copy of the treaty, but we do not know whether his draft was accepted, or whether Japan presented another."

Regarding the allegations of Japanese aggression in Siberia, Senator Hitchcock demanded that the United States should be guarded against involvement in hostilities brought on by such aggressions.

"We are sacrificing too much," the speaker declared, "in order to enable Britain to get rid of the Anglo-Japanese Alliance, which never greatly menaced us."

Navy Plans Bill For Big Reserve In Peace Time

(China Press Service)

Washington, March 2.—A tentative bill has been prepared by the Navy Department for the complete reorganisation of the naval reserve force, and will be submitted to Congress in the near future.

The bill has first been sent to officers of the naval reserve for comment before transmission to Congress. It would establish a naval reserve force as a component part of the navy, consisting of three classes of fleet reserves, marine reserves, and volunteer service enlistments for four years.

The plan of the new naval reserve is something as follows: The first and second classes will be ordered to duty in time of national emergency, but are to be called out in war-time only with their own consent. Volunteers are liable to war duty only, with pay while on active duty, the same as the regular navy, and with clothing allowances. Twenty years service will entitle a regular navy man to retire to the reserves on one-third pay.

CONFERENCE AT HONGKONG MAY BRING STRIKE'S END

Government And Union Officials Meet

WALKOUT GROWS

Europeans Enlist To A Man For Emergency Work

(Reuter's Pacific Service)

Hongkong, Mar. 3.—Four hundred and sixty-two residents had registered for service until one o'clock today, when the lists closed.

(Special Cable To The China Press)

Hongkong, March 3.—An important meeting between representatives of the Government, delegates of the striking seamen, ship owners, and members of the Hongkong Chamber of Commerce was to take place this afternoon.

In the meanwhile, the general strike grows. Labor organisations in all fields are directing the walkout, the Chinese leaving their work without submitting definite demands.

The government and private citizens are efficiently coping with the strike conditions. Hotel guests and members of clubs are doing such work as is necessary. The West Point district, usually brilliantly alight with hundreds of Chinese teashops and restaurants, is black as the night itself and apparently without life of any sort.

Squads of ten soldiers in trench helmets and with fixed bayonets, accompany each foreign policeman on duty patrolling the streets in the vicinity of the wharves.

Hundreds of Chinese who attempted to walk to Canton are being turned back to Hongkong by the soldiers on duty at the border.

The government is disparaging publication of the many rumors current here, which the Canton press is publishing as facts.

Long queues of foreigners daily stand in lines formed outside the bakeries and dairy farms in order to obtain their daily supplies. The food supply here is ample. Many Shanghai people, however, are unable to obtain passage on the coasting vessels because there is no food aboard.

Hongkong is virtually prohibition territory now. The club bars alone remain open.

Conditions prevailing here are practically the same as those which existed during the war, but there is no martial law.

Despite the serious turn the strike has taken there is no indication that Shanghai is being visibly effected by the turn in events. The Chinese press, from time to time, has published reports of meetings held here by strike sympathisers at which various resolutions were reported to have been passed and money raised for the strikers benefit. In practically every case, however, close checking up of the reports have shown that the meetings were attended by only a few people and that extremely small amounts of money, if any, have been forwarded to Hongkong.

The following translations from the Chinese press are therefore printed merely as showing the Chinese view of the strike news:

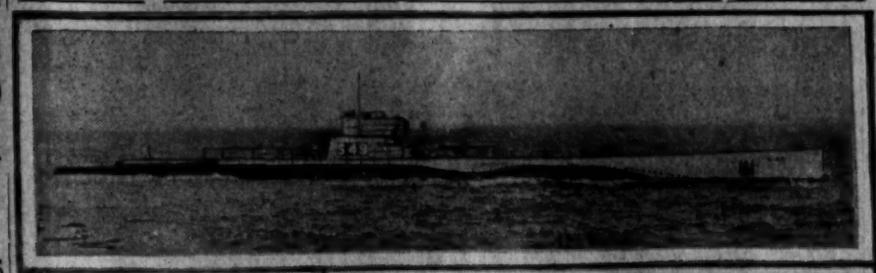
Shin Pao says:

"During the last month over 2,000 Ningpo seamen have been recruited to replace the seamen on strike. At present no more Ningpo seamen can be recruited and those who are now being recruited are mostly riksha coolies. They can neither speak English nor do they understand the work to be done by seamen. As recruiting had to be done in haste no time was spent in investigating the qualifications of the recruits. Now certain companies are still in want of several hundred seamen and finding that it is difficult to recruit men who understand the work they are enlisting houseboys and cooks in foreign employ."

The Shanghai Journal of Commerce published the following telegram from Hongkong:

"The Civil Administrator of Chinese Affairs at Hongkong has received a telegram from Canton stating that the four representatives of the seamen are coming to Hongkong on March 3 (today) accompanied by representatives of the Canton Chamber of Commerce."

Uncle Sam Tries Out New Submersible



THE S-49, a new submersible, built by the Lake Torpedo Boat Co., at Bridgeport, Conn., for the United States Navy, is, shown above on her first trial spin. After she has been turned over to the Navy the new subboat will be used for coast patrol service. Below, left to right, are Commander Lowell, U. S. N., who will be in charge of the new boat; Captain Barnette, mechanic, and Simon Lake, inventor of the S-49.

LEAPS FROM 2ND FLOOR TO ESCAPE THIEF'S ATTACK

Japanese Woman Jumps From Window Of Residence; Is Severely Injured

To escape the attack of a Chinese burglar, Mrs. A. Tomio, a Japanese woman residing at 7 Keeble Gardens, leaped from the window of the second floor of her home Thursday night and was severely injured. She is expected to recover. The robber succeeded in escaping with $800 in notes and 1,000 in yen.

The Chinese came slinking into the room where Mrs. Tomio was sitting. When he saw her he rushed at her and began beating her with his fists. She fought back until she collapsed. The man then tied her hands and left her on the floor. When she regained consciousness fearing that the man would return, she crawled to the window and threw herself out.

Neighbors took her to the Foo Hing Hospital. Mrs. Tomio declared she recognised the intruder as the brother of her cook, and investigation by her husband showed that the cook and the money he had in an unlocked drawer in the house were missing.

Mr. H. Jenko, 78 Range Road, also discovered a burglar in his house when he returned home about 8 o'clock Thursday night. Nothing was missing. The burglar escaped by climbing over a fence in the back of the house.

Prospects Bright For New Cabinet

(Staff Wire to China Press)

Peking, March 3.—Prospects are bright for the formation of a temporary compromise cabinet by General Pao Kwei-ching, Minister of War, within a week. On account of his being formerly the Tuchun of Kirin, a subordinate to Marshal Chang Tso-lin and his old affiliations with the Chihli leaders, it is possible that he will be acceptable to both factions.

General Pao is proceeding to Mukden to seek the support of the Fengtien Tuchun. If Chang refuses to accept him as Premier, it will be construed to mean a disinclination to reunite the Northern factions against Dr. Sun Yat-sen's threat to march against Wuchang and Hankow rather than a tacit encouragement.

(Reuter's Pacific Service)

Peking, Feb. 28.—While the negotiations between the Fengtien and Chihli leaders are continuing and no actual developments are reported it is stated semi-officially that the Cabinet situation is now more hopeful. General Meng Enyuan, in the character of mediator visited Paotingfu on the 28th instant. He returned to Peking yesterday and made his report to the President, leaving here by the evening express train for Mukden.

Unofficially it is stated that the proposals brought by General Meng to Peking were acceptable to the President and that his visit to Mukden is with the object of gaining the concurrence of General Chang Tso-lin. It is hinted that the plan proposed by General Tsao Kun is for General Pao Kwei-ching to be appointed Premier, but no official confirmation of this report can be obtained.

Y.M.C.A. Membership Drive To Be Closed This Evening

Program To Be Given At Martyrs' Memorial Hall When Final Results Will Be Announced

Final efforts are being put forth today by the teams of workers that have been carrying on the membership and financial campaign in aid of the Y.M.C.A. This is the last day of the drive which will be brought to a close this evening when a program will be given and results will be announced at Martyrs' Memorial Hall.

This year's budget of the Association, now in its twenty-second year, amounts to $180,000 and it was with the purpose of raising more than half of this sum that the campaign was launched. The efforts of the twelve teams of workers already have met with generous response, but it was announced last night that a large additional amount must be realised today if the campaign is to be wholly successful.

The Shanghai "Y" has had a steady and substantial growth. It had in its educational classes last year a total of 2,686 students from all parts of the Settlements and from practically every business establishment in the community. The educational work is maintained at a loss because it is the purpose to place the fees at a rate which the average young man starting in business is able to pay.

The work of the Association in physical welfare is represented by the enthusiasm displayed by young China at the Far Eastern Games last spring. Together with mission schools the Association has for many years promoted all lines of recreative sport and today has an indoor and outdoor program of activities that includes gymnasium classes, swimming, health campaigns, play-ground work, physical examinations, and outdoor sports. Basketball, volley ball, tennis are all now keenly contested by the Chinese.

In its service department the Shanghai Association renders a large service to the community for which no remuneration of any kind is asked from those benefited. It maintains a center for the poor of the "beach" in the North Szechuen Road region. It has educated 300 boys in free schools taught by volunteer workers. It has a center of experiment and demonstration in Pootung which is caring for the physical and social needs of the industrial workers and their families. It also works in nine industrial plants in Shanghai, organising within them groups for study and mutual improvement. This work is in the experimental stage but promises much for the future. The Association has maintained for two years a bureau to assist the Chinese returning from war service in France and during the past year has found jobs for 1,523 of these men.

In 1921 there was an attendance of 37,998 in small group Bible classes and slightly over this number in religious meetings. However the Association is not narrow in its religious policy but opens the privileges of the organisation to young men regardless of religion or creed. It is an interesting fact that while its membership now numbering nearly 5,000 is made up of men of all religions and from all the provinces of China yet there has never arisen any issue as between religions or provinces.

Contributions sent to General Secretary Y.M.C.A. will be greatly appreciated and duly acknowledged.

Changes In Erin Bill Rejected

(Reuter's Service)

London, March 2.—In the House of Commons the committee stage of the Irish Bill took the form of duel between the Government and the Die-hards. Mr. Churchill refused to accept any amendments on the ground that any alteration in the text would kill the treaty.

The amendment substituting Southern Ireland for Ireland in the title of the treaty, since Ulster had not been consulted in regard to the matter, was rejected by 254 votes to 65. A similar fate awaited the motion designed to prevent Ireland seceding from the Empire.

(China Press Service)

Dublin, March 2.—Serious attacks on the provisional government occurred in the Dail Eireann today with feeling running high. Eamonn DeValera, former provisional president, continued to press for recognition of the supremacy of the Dail Eireann, but the ministers of the provisional government maintained that they are supreme and responsible to the people alone.

Provisional President Griffith undoubtedly holds control. Observers believe that today's session strengthened the provisional government and increased the confidence of the public in their ability to handle affairs.

Banque Bill Up In French Senate

(Reuter's Service)

Paris, March 2.—The Senate today began discussion of the bill for the restoration of the Banque Industrielle de Chine. The Premier, and the Ministers of Finance and Justice were present.

The reporter of the Financial Committee insisted that the guilty parties, if there were any, should be promptly brought to justice, and expressed the fear that when so many millions had been squandered, some of the money might have remained in certain hands.

The Minister of Justice undertook to accelerate the inquiry into the matter.

London, March 3.—Advices from Paris state that the Foreign Affairs Committee of the Chamber has appointed a sub-committee of five to examine and report on the dossier relating to the Banque Industrielle de Chine. This is regarded as a success by the advocates for an enquiry.

BRITAIN'S PREMIER TO QUIT, AIDES WILL STAY

Lloyd George's Determination To Resign Fixed

NOT THREATENING

Unionists Deny Animosity, Pledge Support

(China Press Service)

London, March 2.—It was announced today that despite conferences that pledged Unionist support, Premier Lloyd George had announced that it was his fixed intention to resign and had told Mr. Austen Chamberlain and other Unionist leaders of his determination.

No public announcement has come from the Premier nor has he, it is stated, made any threats to resign. The determination expressed to Mr. Chamberlain was without any reservations.

The resignation will be phenomenal in one respect, that the other ministers will remain in power awaiting the selection of a new premier.

(Reuter's Service)

London, March 2.—The political tension became accentuated today. Mr. Austen Chamberlain and Mr. Balfour conferred privately with Sir George Younger and Sir Malcolm Fraser, the heads of the Unionist Organisation, with reference to Mr. Lloyd George's communication, which formally called upon Mr. Chamberlain to take action to check Unionist indiscipline.

Sir George Younger explained that his attitude towards the Coalition was not personal but represented the feeling of local Unionist Associations which insisted on selecting independent Unionist candidates.

Twenty Coalition Liberals and Ministers, including Mr. Winston Churchill, attended a dinner given by Mr. Lloyd George, at the Savoy Hotel last evening, which was arranged at twenty-four hours notice.

Mr. Lloyd George presided at a meeting of the Cabinet this afternoon.

A meeting of Unionist Peers and commoners unanimously passed a resolution emphasising the urgency for the re-assertion of Conservative and Unionist principles in order to restore confidence in the country and with a view to the approaching general election.

London, March 2.—"Citizens do your duty," is the urgent appeal addressed to London's 1,817,000 electors in this morning's leading articles in connection with today's elections for the London County Council. Sixteen out of 124 Councillors have been returned unopposed, namely, 15 Municipal Reformers and one Progressive.

There are 252 candidates in the field, comprising 98 Municipal Reformers, 49 Progressives, 98 Laborites and 7 Independents. The Municipal Reformers have had a majority for the past 15 years.

Special efforts are being made by all parties to induce women, who form about one half of the electorate, to record their votes. The women candidates number 25.

The fight centers on economy, education and municipalisation. The Moderates desire drastic economies in the schools and elsewhere. The Laborites advocate municipalisation.

London, March 3.—Although the figures of the results are still lacking it is already evident that the London County Council elections have resulted in a big victory for the Municipal Reformers who have promised drastic economies. They have secured 67 seats, the Progressives 17 and the Laborites 10.

London, March 3.—No fresh developments have arisen in the political crisis but it transpires that Mr. Lloyd George has requested the Unionists to reply by March 8, when, failing a satisfactory response, he will tender his resignation.

JAPAN'S TRADE FIGURES SHOW IMPORT INCREASE

(China Press Service)

Tokio, Feb. 28.—Japan's foreign commerce has grown much worse in the new year than it was in 1921. It threatens to swell Japan's adverse trade balance up beyond the level of last year. A statement issued yesterday by the Department of Agriculture and Commerce shows that this unfavorable tendency will continue for some time to come.

Giving an outline description of January's foreign trade, the omcial statement says that in January both exports and imports increased but the import gain was much larger than that of exports. One of the most striking advances in the history of Japan's outward commerce resulted. The January import excess was more than two times as big as that for the corresponding month of 1921.

"If this tendency evidenced in January continues, the present year's import excess must run to a huge figure," states the official statement. "The cause for this strikingly adverse result can be found chiefly in rice and raw cotton. When raw cotton's prospect is examined the immediate future in the import trade may be fairly well seen."

Import of raw cotton in January amounted to Y58,605,000, which was an increase of Y27,367,000 or 87.8 percent over the preceding month. The best part of the month's imports was unloaded at Kobe. Part of this increased arrival was brought about by wholesale purchases by Japanese cotton mills of American cotton for several reasons.

One reason was that the stock of American cotton mills purchased before the 1920 crisis for speculative purposes had been all consumed. Another was that on August 15, 1921, the Japanese Cotton Spinners' Association partially lifted the restriction on mills operations and gave indications that all restriction would be lifted on December 15. Still another reason was that Japanese cotton mills were given the impression that they might cover ahead to advantage by the report that the cotton acreage in the United States would be reduced, party owing to the previous season's bad crop and partly on account of diseases found on plantations.

It was also reported that the price of raw cotton in America was going up higher.

Indian cotton was also partly responsible for January's heavy arrival. For this there was another cause. The official statement says that at the close of October, 1921, the cotton rate convention between the Japanese Cotton Spinners' Association and shipping companies was renewed with the result that cotton rates were reduced. Cotton shippers accordingly postponed shipment till November and later months.

"All this proves," says the official statement in conclusion, "that large imports of raw cotton will be continued for some time to come, and the country's foreign commerce will be thereby affected."

C. F. McWilliams Old China Hand Dies Of Heart Failure

Mr. C. F. McWilliams, former passenger agent for Shanghai of the Great Northern Steamship Company, aged 59, died yesterday at the General Hospital from heart failure after a three months illness.

The diseased for many years had been connected with the T. K. K. steamship lines. He founded the Shanghai Sanitary Laundry Co., and served as its general manager until the recent British order in council which required that only Britons might serve as heads of limited liability companies.

Mr. McWilliams was well known in Shanghai and China, and leave a host of mourning friends.

A requiem mass will be sung Monday at the St. Joseph's cathedral, to be followed by interment in Bubbling Well Cemetery, at 4 p.m.

America's Trade Shows Big Drop

(Reuter's Service)

Washington, Jan. 30.—Exports to Europe during the past year fell off by more than $2,000,000,000 as compared with 1920, while exports to South America declined by more than $300,000,000 according to foreign trade reports issued today by the Commerce Department.

During the year 1921 exports to Europe aggregated $2,364,000,000 compared with $4,466,000,000 in 1920, while imports for the year aggregated $765,000,000, as against $1,228,000,000 in 1920.

For the month of December exports to Europe aggregated $155,000,000, as against $388,000,000 in December 1920, while imports for the month aggregated $73,000,000 against $67,000,000 in December a year ago.

Exports to South America for the year aggregated $273,000,000 as compared with $624,000,000 in 1920, while imports from South America totalled $296,000,000 against $761,000,000 in December, 1920.

Exports to South America in December totalled $16,000,000 as compared with $67,000,000 in December 1920 while imports for the month aggregated $27,000,000 against $36,000,000 in December a year ago.

Protecting the Family

THE primary purpose of life insurance is the protection of the family. In the majority of cases the family depends largely or entirely for its subsistence upon the earnings of the family head. In surprisingly few cases, however, does his foresight adequately protect them against the uncertainty of the future.

LIFE insurance affords the only immediate and direct protection at an investment within the reach of even the most modest incomes. Failure by the family head thus to insure invites the payment of a heavy forfeit by those dearest to him.

ARNOLD LECTURES TO CHINESE ON TRANSPORTATION

Peking, February 27.—That the tonnage carried by American railroads in 1920 over an area equivalent to that of China and Manchuria would, if carried upon the backs of Chinese coolies, require a number of carriers equal to twice the number of living Chinese men, women and children was brought out by American Commercial Attache Arnold in a lecture before the students of the Communications University. He further emphasized the need for better communications in China by showing that a Hankow flour-merchant can ship wheat from Chicago elevators cheaper than from the hard-wheat basin of his own country, Shansi and western Shantung.

Chinese discovered the use of coal, having amazed early European travellers by burning "black stones" for heat, said Mr. Arnold, yet in 1920 China mined only 20,000,000 tons of the fuel while the United States produced 650,000,000 million. Of course, there is the factor to be taken into consideration that America's deposits are, for geological reasons, as a rule much more easily and cheaply worked.

China taught Japan how to produce silk. Yet today, the United States, the largest buyer of silk, imports chiefly from Japan. China silks occupy a small place in the American market because of absence of standardisation, quality, and strength of filament. Scientific breeding and feeding of the silk-worm has been neglected, and much labor is wasted.

A similar condition exists in regard to cotton. No country has so much likely cotton-growing land as China. Yet Chinese cotton is distinctly inferior, and long-fibred varieties cannot be successfully introduced until the scrub cotton which immediately mixes with and degrades it is suppressed.

China's great needs of a material nature, concluded Mr. Arnold, are science and transportation. Given an efficient and universal transportation system, China will suffer from no famine, and her map will show no barren spot and no over-populated area.

Bank Sub-Manager Freed On Charge Of Embezzlement

Defense Intimates Action For Malicious Prosecution Against Complainant

The charge of embezzlement brought by the manager of the now defunct Ting Foong Bank in the Mixed Court against the sub-manager of the bank was dismissed yesterday on the evidence of the cashier. The amount involved was $5,700, which was alleged to have been taken away from the bank by the defendant on February 17, the day on which the bank stopped the payment of specie.

Mr. Roland Haskell prosecuted and Mr. J. Em Lemiere was counsel for the defense. Dr. J. O. Fischer watched the case in the interest of two shareholders of the bank. Mr. Lemiere intimated at the conclusion of the proceedings that his client proposed to bring a charge of malicious prosecution against the complainant.

In his evidence the cashier said that on February 17 one Zia, a shareholder took from the safe $2,100 in the presence of the complainant, and the complainant as well had taken $5,700. Zia took the money at 2 p.m. that day, and witness was in the bank till 5 p.m. The key of the safe was always kept by the witness. After Zia drew out $2,100 and the complainant $5,700 there was left in the bank some $300. The defendant did not take out any money from the safe.

Navy Yachts To Be Sold To Aid Economy Move

(Reuter's Service)

London, March 2.—In the House of Commons this afternoon Mr. Leopold Amery, Parliamentary Secretary to the Admiralty, announced that in the interests of economy, the Commander-in-Chiefs' yachts, the Surprise and Alacrity, would be paid off and disposed of as soon as was practicable.

"The Three Twins"

The second performance of the above comedy by a strong A.D.C. cast last night was in no way behind the previous performance.

Playing to a full and sympathetic house, with the experience of two previous nights, the artistes were able to do themselves fuller justice, and in one or two cases to free themselves from initial nervousness displayed on the first night.

Mr. Wingrove has certainly proved his capability as a producer, for a show of this type with its large cast and various items needs a great deal of handling.

The characters of the play and the manner in which these have been taken by the various A.D.C. performers have already been commented on.

Suffice it to say that last night's performance went with a swing which completed satisfied the audience, and the A.D.C. is to be complimented on another success.

WIRELESS PUTS ROLLERS UNDER MEXICAN BANDITS

Revolutionists Helpless While Communications Stand

(Reuter's Service)

Mexico City, Jan. 25.—Wireless telegraphy has contributed greatly to keeping down revolution in Mexico and the Government, recognising its value, is establishing stations in every large city in the republic.

Officials assert that by using the wireless, they are able to communicate directly and immediately with military headquarters and thus are able to head off many incipient uprisings which might grow into serious revolutions if not promptly checked.

In the old days the first thing a band of rebels did was to cut all telegraph and telephone wires, thus isolating the region of revolt.

In its station at Chapultepec Park here the Mexican Government has one of the largest and best equipped plants on the continent. During the Carranza administration the station was practically idle, but during the past few months it has been used daily by the Government in sending official news letters to Central and South American countries and in keeping its ministers and consuls informed of affairs at home.

It has been announced that the Government expects to open the station shortly for commercial work.

It has also been found that the station here can be used as a supplement for the land wires throughout the republic and congestion on the latter is often relieved by the Chapultepec plant.

Ignacio Galindo, who for many years has been identified with wireless activity in Mexico, will represent the republic at the radio-telegraph convention to be held in Rome, next April.

S'hai Fire Dept. Sets New Record For Calls Answered

The Shanghai Fire Department established a record in January for calls received and answered when a total of 55 was received and responded to. The figure surpassed the previous mark by two. Of these calls 51 proved to be genuine fires and four either false or untraced. The damage on assessed property within the Settlement was estimated at Tls. 9,125, while the estimated risk was Tls. 2,447,500.

A rather unusual experience was met with at a fire, off Woochang Road, when a demented man set fire to a house in two places, went out and waited for the division concerned, and laid down in front of one of the machines. He was taken before the Mixed Court and sent to the House of Detention.

Another serious fire occurred at Pootung, which occupied the brigade 107 hours, and which was fought with the assistance of the powerful fire pumps of the British Cigarette Co.'s installation. The mill in question the Pao Yuen Paper Mill, one of the largest in China, was in flames on the east side, and great difficulty was experienced in saving the west portion.

No Papers For Yusuf Kemal Bey

(Reuter's Service)

London, March 3.—The Sublime Porte has decided not to grant official credentials to Yusuf Kemal Bey, the Nationalist Foreign Minister, according to reports from Constantinople, but is sending General Izzet Pasha to Paris and London to negotiate in behalf of the Sultan in support of the Kemalist program.

It is reported from Smyrna that the project is gathering strength to make Smyrna a second Fiume, with General Papoulas as d'Annunzio.

Hunan Governor Playing Double Game, Enemies Say

(Eastern News Agency)

Hankow, March 2.—General Chao Heng-ti, Commander-in-Chief of the Hunan troops, has declared his intention to maintain peace and order in Hunan province by means of what his enemies call his "double-faced" policy.

He has, on the one hand, they state, entered into an agreement with General Lu Chao, ex-Commander-in-Chief of Szechuen, and representative of Dr. Sun Yat-sen, offering to pay military funds of $5,000 monthly to the expeditionary force of the South against the North on condition that Dr. Sun's army does not enter Hunan. On the other hand, he has despatched a telegram it is reported, to General Hsiao Yao-nan, Tuchun of Hupeh, requesting the latter not to allow the Northern troops to enter Hunan since that province would maintain neutrality.

She Must Go Back

She has been granted a ten-day stay, when she will be deported to Poland.

Democrats Start Fight To Defeat U. S. Ship Subsidy

(China Press Service)

Washington, March 1.—President Harding has presented to Congress his shipping subsidy plan providing 32,000,000 dollars annually. This is to be found principally by the diversion of ten percent of the American Customs receipts. Not more than fifty percent of immigrants may be transported in foreign ships. Shipping Board vessels will be sold and the proceeds used as a construction loan fund.

President Harding further recommended the granting to Railways the right to operate steamship lines and also the enforcement of the section of the Merchant Marine Act providing preferential rail and steamship rates on through shipments by American vessels.

President Harding advised the insurance of American vessels at not greater cost than foreign ships. He declared that he anticipated very stiff foreign mercantile competition and urged the awakening of American pride and the determination to carry America's own commerce.

He described the wartime tonnage creation as America's great experimental tonnage venture which had failed at enormous cost.

Granite State To Shift To Atlantic

(China Press Service)

Washington, March 2.—The United States Shipping Board today announced that the s.s. Granite State, which has been operated by the Pacific Mail Steamship Company on the San Francisco-Honolulu-Manila-Colombo run, has been allocated to the United States Line for service in the North Atlantic.

The Granite State, one of the 535-type, and the Creole State, which was operated on the same run, were the only two shipping board passenger vessels which did not have their terminus on American territory.

Maurice Hewlett As An Alderman

BY MAURICE HEWLETT

Famous British Author in an Article in the London Daily News.

Though something of the newest that is an addition to my store of honors, and it was with that at the back of my head, and an Essay of Bagehot's before my eyes that I fell into the train of thought which is hereafter expressed. Bagehot was quoting Shakespeare, the Second Part of "King Henry VI," where two of Jack Cade's following are discussing the wonders to come.

George: O miserable age! Virtue is not required in handycraftsmen.

John: The nobility think scorn to go in leather aprons.

George: Nay, more; the King's council are no workmen.

John: True; and yet it is said, Labor in thy vocation, which is as much to say as, let the magistrates be laboring men, and therefore we should be magistrates.

Among the few things which are certain about Shakespeare, one is that when he penned (if he did pen) that scene he thought he was describing two clowns; and another that, to his mind, the inference that working men should be magistrates was as good a mark of clownishness as he could devise. Bagehot himself, with all his clear sight, goes on to agree with Shakespeare, and to pronounce that so did the British people. Yet laboring men are magistrates at this hour, members of Parliament, Privy Councillors and Cabinet Ministers.

WORK AND GENTILITY

In that position of respect and hard work to which I have been chosen by my shire I think it more than likely that other laboring men may be found; for we seem to be a "fortuitous concourse of atoms." A marquis is chairman, and among the Aldermen and Councillors are peers, members of Parliament, clergymen, military officers and a number of untitled persons, one, at least, besides myself, living in a cottage.

Well, my bench at Sarum, as I expect my council at Trowbridge, are doing their best to show that there are no longer any "orders." One is more or less of a gentleman—which is, or should be, only to say that one is more or less of a man.

Perhaps we cannot yet get it out of the optative mood, but I hope we are on the way.

A family story is of a maid who, when she was asked what she meant by a lady, said:

"Someone who lies on the sofa and rings the bell."

That takes you back a long way. Its correlative comes from that Duke of Devonshire who said of a cousin of his:

"He is not a gentleman—he works."

AS TO "INTIMATES"

It was told of Sir Walter Scott by one of his own people that he spoke to every man as if he was a blood relation. Lockhart, in reporting it, exclaims upon his habit of "freedom of personal intercourse" with his servants both outdoors and in as being extraordinary. I suppose it was then very extraordinary for I happen to know that it is considered by some rather extraordinary now.

Yet, living as I do and have done for many years in a recessed country village, I should have been in a considerably worse position than I am if I had not been able to associate on just those terms with people who have not had my upbringing which Sir Walter used. If I were now to reckon up my intimates, those whom I may fairly call friends, I am sure I should find more of them among the peasantry than in any other walk of life.

"People have asked me: But what on earth do you find to talk about? And I always reply, just what you and I talk about—whatever happens to turn up. You can't talk to anybody—to call it talk—unless you are yourself. Sure of that on both sides, the talk follows.

"Everything flows," in fact, as the sage said; and a good thing, too. The tide is now urging upwards the kindly earthen vessels, and in the growing scarcity of them of the brazen make they will make a better passage of it today than there was any prospect of doing in Walter Bagehot's. That exponent of clear thinking and hard hitting died when I was sixteen. Just as little as he thought in his heyday that "laboring men" would sit upon the bench where he sat, *jure divino*—just as little did I think in that year of his death that I should live to be an alderman.

(Reuter's Pacific Service)

Tientsin, March 3.—Banks and business houses are all taking a holiday tomorrow on the occasion of Marshal Joffre's visit. The city is already extensively decorated and beflagged.

Peking, March 3.—The round of brilliant entertainments in honor of Marshal Joffre continues. There was a dinner and reception at the French Legation last night and a luncheon at the British Legation today. Tomorrow the Marshal leaves for Tientsin to attend an entertainment there and returns to Peking in the evening. On Sunday Marshal Joffre rests and on Monday unveils a memorial to the French dead at the French Legation; on Tuesday he leaves for Shanghai.

Peking, Feb. 28.—Marshal and Madame Joffee were the guests of Mr. Obata and Mrs. Obata at luncheon yesterday, at which there were present the leading French and Japanese officials and residents of Peking.

Lantern Parade For Joffre On March 9

Invitation was extended yesterday by the French Municipal Council to the Commercial Federation to participate in the lantern procession to be held on the night of March 9 in honor of General Joffre, who is expected to arrive in Shanghai on March 8.

Work on the decoration scheme along Rue du Consulat and other parts of Frenchtown began yesterday. Poles were erected along the streets about 20 feet from one another. Lanterns will line the entire length of the route along Rue du Consulat, Avenue Joffre up to the Public Garden at Koukaza.

LITERARY DEP'T OF A.W.C. TOLD OF CHINA'S RELIGIONS

Rev. Frank Rawlinson Reads Interesting Paper At Section Meeting

"Some of the Earliest Known Religious Ideas of the Chinese" was the subject of a paper of unusual interest read by Rev. Frank Rawlinson, D.D., before the Literary Department of the American Woman's Club yesterday afternoon in the lecture room of the Royal Asiatic Society.

Dr. Rawlinson in introduction disclaimed any attempt to set forth a discovery of the original religion of China but said he was glad to make a study of the subject and present his findings to this department which was also eager to obtain a better understanding of China.

"There is no book in existence," said Dr. Rawlinson, "which formulates the religious principles of the Chinese, nothing corresponding to the Western Bible, although the Odes have sometimes been compared to this. All I have been able to do in making this study has been to collect inferences from scattered references in literature, some etymological research and a comparison with present day religious life in China. For the purposes of this discussion I shall define religion as man's attitude toward superhuman powers larger than himself.

"While human sacrifices existed prior to historical records and may have had some religious significance they passed out of the experience of the race before the time of Abraham's projected sacrifice of Isaac. While there was practice of divination early there is no evidence of a priestly class and no evidence of anything like Phallic worship, or image worship, idols being introduced after Buddhism. Ancestors and spirits were early worshipped but there seems to have been no attempt to deify them, though they were regarded as next in importance to Heaven, or the Supreme Being.

"Animism, the recognition of superhuman power in natural objects and living beings, was observed and probably existed together with polytheism and deism, the worship of the forces of nature perhaps implying a perception of what lay back of them, possibly the one great spirit.

"The Worship of the Earth is a later development, as in ancient times Heaven as the Supreme Being was not associated with Earth. The veneration of early worthies and mythical or historical rulers or public benefactors was gradually built up. Finally the worship of the Supreme Being has never involved any image, its rites were performed mainly in the open and there is no evidence of anthropomorphism, although this all-powerful being seems to have been recognised as holy, moral and loving, and by implication personal."

A committee to present nominations for officers for the department next season was elected by ballot as follows: Mesdames W. F. Beaman, W. W. Bartlett and R. Roberts.

Fate Of Subsidy Bill Doubtful

(China Press Service)

Washington, March 2.—President Harding and other republican leaders are utilising the present week, which will mark the close of the first year of Harding's administration, to complete twelve months of "constructive" action.

It was for this reason that the President yesterday had introduced in Congress the Ship Subsidy bill. The fate of the bill, however, is admittedly very doubtful. It is being bitterly opposed by that element of Congress which wants the Soldier bonus action. The latter today coined the ironical epigram, "Millions for Subsidies; But Not a Cent for Soldiers."

The greatest act of President Harding's first year in office has been the enactment of the budget whereby hundreds of millions of dollars have been saved the taxpayers on government administration.

In a statement given out by Mr. Chang Hu, Minister of Finance, he stated that since the $96,000,000 loan is being issued with the unanimous approval of the Chinese Bankers' Association, the government and the Diplomatic Corps, he was not afraid of its failure. As to his own position, Mr. Chang said, it was a personal matter and he would certainly not entertain any idea of resigning just on account of the threat of certain militarists.

Sea-Sickness Can be Prevented!

No Drugging—No Unpleasant After-Effects.

An appreciative doctor wrote:—

"Lady——was placed under my care for the voyage Home. I could not accept any responsibility as I considered she was in great danger from haemorrhage should she vomit. She had always been a very bad sailor. As a precaution she was given two capsules of 'KIRBY'S SEA-SICK CURE' immediately she went on board. We got into rough water shortly before midnight, but Lady——had an undisturbed night's rest. She took one capsule half-an-hour before dressing. She had breakfast in the dining hall, and assured me she had no sensation of nausea or sickness. Although we had rough weather for five days, and at other periods of the voyage, she was not sea-sick. There was no nausea of any kind, and the remedy produced no after-effects."

HOCKEY TITLE WILL BE DECIDED TODAY BETWEEN HARLEQUINS AND PORTUGUESE

Final of Knockout Tournament At Hongkew Park To End Season

The season's title for hockey will be decided this afternoon at Hongkew Park when the Portuguese Club and the Harlquins meet in the final of the Knockout competition for the Hockey shield, now held by the North Police team of last year. The two teams have won their way to the final in an elimination competition in which the Police, the Sikhs, the Endeavorers opposed them.

The match should provide an excellent hockey interest with the Harlequins on the one side always rated with the strongest teams in the city, and the young Portuguese players on the other with several individuals in their lineup competent to make any Shanghai interport team.

The game marks the official closing of the hockey season. There may yet be a special match arranged between the winner of today's match and the Rest of Shanghai, and perhaps a friendly match between the visiting Hong-Kong rugby interporters next week and a selected team for Shanghai. No details of these two possible matches have been announced as yet.

Harriers Handicap On This Afternoon

The Shanghai Harriers Club will run off a cross-country Handicap over a course of 3½ miles, the start being from the American School at 3 o'clock this afternoon. A good entry is expected. There are several new and promising runners who have been found by the Club this season and will certainly give a good account of themselves, J. D. Mears, W. R. Tipton, H. Atkinson, G. Cox, A. Maitland, V. Cook and a number of others all have been showing good form this season. The course will test the staying power of the competitors including as it does several wood jumps. The handicap was framed by Messrs W. W. Bartlett, Wal. Wilson and C. C. Reneman.

English Golfers For Truer Test

The proposition to increase the match play rounds in the British amateur golf championship from eighteen to thirty-six holes, preceded by a qualifying round to eliminate the non-championship deadwood, seems to have become something of a popular idea in England. At least, one might arrive at that conclusion after scanning the names on the petition drawn up for the consideration of the Royal and Ancient Committee of St. Andrews.

The first dozen signers are truly representative of golfing sentiment in England, ranging from John Ball, who won eight British championships under the still existent conditions, to Cyril Tolley and Roger Wethered, leaders of the present generation of British amateurs. It would, therefore, appear that the movement is destined for success, although it may be remembered that a similar attempt in 1912 was abandoned because its equally promising early support died of malnutrition.

A plebiscite is now being taken among the men who have competed in the British championship during the last two years in addition to the plus-and scratch players of the foremost British clubs.

This means that Chick Evans, Bobby Jones, Francis Ouimet, Jesse Guilford, Bill Fownes and other Americans who started in the British championship last summer will be asked for an expression of opinion on the question, and their answer should be ready made. It was the objection of these American players, characterising eighteen holes as an "unfair test of golf" that had much to do with inspiring the present wave of reform.

The early signs are all in favor of the proposed change. Until a few weeks ago sixty players had voted for the new system and only three against it. Just what has happened in the meantime has not been made known, but it is obvious that a continuance of this sweeping majority in the later voting would certainly prompt the Royal and Ancient Committee to do more than raise a negligent eyebrow.

SAYS "BUGS" Baer:

GINK FOWLER SEEKS TROUBLE

He Used To Rattle Into The Automat To Fight The Waiters

BY "BUGS" BAER

You, too—

I remember the time that Gink Fowler fought the Sheetiron Kid. Gink was weaker than water from a leaky dishpan. The Sheetiron Kid wammed Gink with everything but last year's cornstalks. Gink stayed down longer than a houseboat's anchor.

Gink was supposed to be a poisoned apple around Roughtown. But where we came from he was known as the Ripe Plum, because he was always dropping.

I managed the Sheetiron Kid for seventy years, and he was tougher than a leather omelet.

Yours till they stop stealing doormats, MR. SWEENEY.

Mr. Sweeney's letter is not without a certain amount of crude amateur honesty. Gink Fowler did know the Sheetiron Kid who was a rough guy on a telephone. But the Kid had no social standing in Roughtown riots.

He was what is known as a crutch kicker. He picked on the old and infirm and liked nothing better than to swing an axe on an unbreakable Xmas toy.

THE GLUTT WAS ROUGH

Gink played the juvenile in so many Roughtown panics that he went through life thinking cobbles were combs and beer bottles were hair brushes. His one ambition was to get The Glutt into a twenty-four-inch ring and whang him sour.

The Glutt fought Sheetiron and took him for everything but his silk-front shirt. And that was in the laundry at the time. The Glutt was so rough that he had to sleep on crushed rock ballast.

He never trained for a fight. He would just walk in and get carried out in triumph. There was a lawyer in Roughtown named Kafoop who used to defend pickpockets. His motto was "Life sentence is a victory." The mob was sore on Gink because he wore Policeman and Fireman's suspenders. The Glutt waded into Sheetiron, but it got too deep for him. So he dove into the canvas linoleum and started swimming.

'TWAS MORAL VICTORY.

Sheetiron let one fly from the doorknob on his home door and caught The Glutt on the map. It was his intention to spank The Glutt on the eyes. But he missed and caught him between his lamps. This was a moral victory for The Glutt. In order to show that the law was still supreme, Gink's pals started throwing junkyard confetti at Sheetiron.

After they got through, Sheetiron was both of the Two Orphans.

Four years in the World War would have seemed like a weekend to him at that moment. He went away from there like a dissipated coyote. The Glutt chased him in the opposite direction. Whenever trouble started in Roughtown, The Glutt saw nothing but one-way streets.

Nobody ain't seen him or whiskers of Sheetiron since that day and Roughtown folks think he is running an extra ring around the moon.

S.V.C. FOOTBALL FINAL SCHEDULED FOR TOMORROW

The play off of the final in the Volunteer Corps soccer competition tomorrow afternoon between the Shanghai Scottish company and the Machine Gunners for the Fraser trophy will prove one of the most interesting football matches of the season.

Both teams include some of Shanghai's best players sufficiently acquainted with each other's play to give a good exhibition of team work, and all urged by the nice rivalry existing in the corps to their best football efforts.

Boy Scouts will be on the ground collecting donations on behalf of the Sir Arthur Pearson Memorial Fund and it is expected that a record collection will be taken.

Sir E. D. H. Fraser will present the trophy to the winning team after the match and Mr. C. M. Bain will auction off the ball.

The Scotts will play the following men: Messrs. J. M. Pearson, C. Wilkie, T. W. R. Wilson, H. Wallace, J. Robertson (Capt.), A. A. Ewing (Vice-Captain), B. Lawrie Smith, J. K. Ewing, W. F Dailey, J. Falconer, and T. R. Chassels. Reserves: Messrs. J. Alcorn and R. L. Stewart. Referee: Capt. E. I. M. Barrett. Linesmen: Messrs. W. C. G. Clifford and H. Marshall.

SOOCHOW BASKET BALLERS DEFEAT S'HAI COLLEGE FIVE

The Soochow University students basketball team defeated the Shanghai Baptist College five in the Soochow gymnasium yesterday by a 28-17 score. The game was hotly contested in spite of the wide score, the Snanghai students playing a hard game in the second half often threatening to overcome the lead. Close guarding on the part of the Soochow boys was responsible for the win. Liang and Wu for the home team and Feng for the visitors were the stars of the game.

Last Saturday and Monday the Soochow university team started the season with a doubleheaded victory over the Southeastern University and the Nanking University teams of Nanking, on wet and muddy courts, with the games progressing slowly for all four teams. Soochow ranked best throughout the play, however, by scores of 19-11 and 21-7.

Shanghai College today plays Nanking University and on Monday meets the Southeastern University, probably stopping off at Soochow on Tuesday for a friendly game with the Soochow American team.

FOOTBALL CARD HAS BUT TWO MATCHES LISTED FOR TODAY, BOTH AT HONGKEW

Races And Rain Interfere With Big Week End Soccer Program

Football prospects were too uncertain last night for the forecasting of regularly scheduled matches, with a race meeting, postponed at the eleventh hour interfering with listed dates, and rain still driving down and every prospect for a clean cancellation of all fixtures.

The formal list called for seven matches for this afternoon, one of which fails by reason of the Electricity Department having dropped out of the play, and four others scheduled for the Race Course, cancelled because of the expected races.

The matches remaining on the calendar dependent upon the conditions of the field are two first division contests: one with the Customs opposing the Police, and another with the Portuguese playing the Recs, both at Hongkew.

Football captains last night evidently were not optimistic over the weather prospects for today. Only the Recs came out with their selections for the day's game. Their list follows: Kengelbacher; Quincey, Biggs; Emamooden, Mears (Capt.), Ollerdessen; Stacey, Ferris, Evans, Roxburgh and Manley. Reserves: Marshall, Witschi, McKenzie, Cooke.

Scottowe Replay On Next Saturday

The replay between the S. F. C. "B" team and the Police R. C. in the Scottowe Cup Semi-Final will take place on the S. R. C. grounds a week from today with kick-off at 2:30 p.m. sharp. Extra time must be played if necessary. The final with the Public School will take place on Saturday, March 25.

Races Postponed Because Of Rain

The annual race meeting of the Shanghai Paper Hunt Club which was scheduled for running this afternoon on the City Race Track was postponed by special announcement made last night because of wet course. No new date has as yet been announced for the meeting.

Xaviers Past And Present Elevens Play Tomorrow

The annual football match between the Present and the Past Students of the St. Francis Xavier's College will take place tomorrow at Hongkew Park at 2:30 p.m. sharp.

The Present Students boast of a fast team and the game promises to be an exciting one.

The following will represent the Present:

B. Browne, A. Roche and L. Marcal, G. Rose, R. Favacho, and T. Allan, C. Marcal, A. Costa, H. Hymann, O. Silva, and J. Barnes.

Reserves: A. Souza and A. N. Other.

Referee: Rev. Bro. Faust.

The Past Students have not yet selected their Team.

S.N.R. And S.H.N.R. Play Annual Game Saturday, March 11

The annual match between the S. N. R. and the S. H. N. R. soccer football teams will be played off on Saturday next March 11 (not today as previously reported). The game is called for 3 p.m. on the Markham Road grounds.

In The International Mixed Court Of Shanghai

CIVIL JURISDICTION

In re Wei Fong Commercial Bank
蔚豐商業銀行
(In bankruptcy)

Messrs. Teesdale, Godfrey and Newman, Counsel for Zung Yu Bank (潤餘), Yea Dah Bank (怡大莊), Wei Shing Bank (惠興莊), and Sing Cheng Bank (信成莊), the creditors of the above named Bank in bankruptcy, have filed a motion in this Court objecting to the various "set-offs" referred to in the Court Accountants' report herein dated the 27th October, 1921.

Notice is hereby given that those persons desiring to substantiate their claims for such "set-offs" are required to file with the Registrar of this Court within 14 days from the date hereof, their petitions setting out the grounds for such "set-offs," after which, a date will be fixed for the hearing of the same.

And notice is hereby also given that in default of their so doing, the applicants may proceed thereon and Judgment may be given in their absence.

SAVE JUST A LITTLE

Do you wish to acquire all the money you need?
Then save just a little today.
Don't think that you will suddenly fall into luck,
It seldom happens that way.
Your chance for a fortune will always be slim,
Until you've a sum to invest:
So Make up your mind that right now is the time
Begin now to feather your nest.
Save $12.00 monthly and buy an I. S. S. Premium Bond and on the 15th March, you may draw $12,000 or more.

Standard Time By Siccawei Radio Is Adopted By School

A "Radio Committee" has been organised by the science students at the Shanghai American School for the purpose of receiving time signals sent out by the wireless station at Siccawei Observatory.

An amateur receiving set has been installed at the school, and a student stands at his post each evening at the appointed time. A main clock in the Business Office is adjusted if necessary and this time becomes standard for the school. Classes are opened, meals served, and even the new bus run according to the standard time.

ISSUANCE OF 96 MILLION DOLLAR LOAN DEFENDED

Storm Of Protests Against Measure Brings Out Statement On Issue

The recent issue of the $96,000,000 salt surplus loan by the Chinese Government has raised a storm of protest from the military leaders and politicians. In reply to the objections, defenders of the loan has issued the following statement, styling the protests as merely manifestations of selfishness of the some of the Chinese people:

"Since the establishment of the Chinese Republic, Chinese officials have only learnt how to spend money recklessly. In order to satisfy the demands of the militarists, the officials have sought out different means of raising funds, regardless of public opinion. Bribery has prevailed among them and nobody holds himself responsible vis-a-vis the nation, thus bringing about the general ruin of the country.

The Government despatches have clearly stated that the $96,000,000 loan is to pay off all the outstanding Chinese and foreign short-term loans. Such policy is not at all uncommon in Europe, for it aims at diminishing the financial burden of the country and bringing about better social and economic conditions. But if we read the telegram sent out by one of the Inspector-Generals, it would appear that the Government is trying to give favoritism to the bankers in preference to the soldiers. That such a statement should have been emanated from such a responsible officials is really surprising.

We all realise that the banks constitute the vital elements of the nation. Let us ask whether the Ministry of Finance exists for the interests of the people or merely for the soldiers. If the ministry does not look after the interests of the bankers, but merely those of the soldiers, the country will inevitably go to ruin and all industries will have to paralyse. If it is alleged that the former government had squandered away $96,000,000 for improper purposes, the former government should be held responsible and not the present, which has at least awakened to the necessity of correcting the former follies of reckless squadering. Now that the government is trying to maintain a stable financial situation, those gentlemen have begun to protest. This is like a sick man who, having never paid any attention to his health or the rules of sanitation, begins to protest against the order of the doctor for an injection to be administered to his body.

Owing to the default in the redemption of many loans that the Chinese government had contracted with the various foreign concerns, the credit of the Chinese Government abroad has suffered detrimental effects. Now even internally, the Chinese Government is not willing to repay the amount of capital loaned to it by the Chinese bankers, which represents the money belonging to the people. Such a policy will creat bad faith and make China a laughing stock in the eyes of the world.

Now the militarists demand financial publicity; but as we know, two-thirds of our national revenue, such as the recepts from Likin, railways, salt gabelle, wine and tobacco tax, stamp tax and others have gone into their own pockets instead of the treasury of the government. Since they demand publicity, it is only logical that publicity should begin with them."

Japanese Ship Goes Aground; Captain And Crew Are Here

Detailed reports of how the Japanese steamer Satzuki Maru went aground off Shaweishan Island at the mouth of the Yangtze River were brought here by the captain and crew who are now in Shanghai. The ship went aground about 35 miles N. N. W. of the island last Saturday at 12:30 p.m. It was chartered by the Kailan Mining Administration and was proceeding from Chinwangtao with 1,850 tons of coal aboard.

The crew were forced to abandon the vessel and she is now breaking up. The ship was a steel screw steamer, 2099 tons gross and was built at Sunderland in 1887. The loss is partly covered by insurance.

Status Of Islands Unchanged, Says Vice Governor

(China Press Service)

San Francisco, March 2.—Professor E. A. Gilmore of the University of Wisconsin, the new Vice-Governor of the Philippines is reported to have told friends here that the American viewpoint toward the islands now was exactly as it was when President William McKinley said: "The Philippines are ours not to exploit, but to develop and civilise."

Professor Gilmore, dean of the Law School of the famous Wisconsin university, is one of the best known authorities on administrative government in the United States.

Because of Governor-General Wood's announcement that he was accepting the appointment in the Philippines because of the emergency and the fact that he was granted only one year's leave of absence from the University of Pennsylvania it is freely predicted unofficially that Prof. Gilmore will succeed General Wood at the expiration of the year of emergency.

Germany's Yearly Payments Fixed

(Reuter's Service)

Berlin, March 2.—A provisional agreement reached between the Reparations Commission and Germany provides for the annual payment of 720,000,000 gold marks in cash and 1,450,000,000 gold marks in kind, the former sum will not be increased even though Germany should fail to make the requisite amount of deliveries in kind.

There will be a simplification of the machinery for the distribution of orders for goods, which are expected mainly to comprise articles not in competition with the Entente's own industries. Steps have also been taken to eliminate the "middleman."

London, March 2.—Sir Robert Horne, accompanied by experts, will journey to Paris on March 8 to discuss reparations with the French Minister of Finance, M. Lasteyrie.

The Chinese Political Stage

BY JOSEF W. HALL

FOR convenience we will temporarily change the metaphor to cards. As previously intimated, the game appears to be distinctly Sun Yat-sen's. Upon how he plays it probably depends upon whether or not there will be another interim in his existence as a political factor. If he plays it rashly he undoubtedly will be leaving China again. I say interim, not end, for he always comes back.

Sun likely has no clear idea of how he will proceed. He is feeling his way, and perpetuating the threat of a military expedition against the North by means of which he maintains his position as a very desirable ally to either of the rival factions of that part of the country. Only by being somewhat of a military leader himself can he make the prospect of an alliance with him attractive to the military leaders of the North.

He has both Wu Pei-fu and Chang Tso-lin courting him in assiduous fashion. What he can do with this favorable position is difficult to see. Once he allies with either faction he will be in the position of the maid who gives up the strategic position of belle-ship for the subdued position of housewife. At present Dr. Sun is said to rather favor Chang Tso-lin, as lying less directly across the path of his ambition to establish the republican constitutional government in Wuhan. But in combining with Chang to eliminate Wu, Sun would be victim to the same mis-judgement which upset him in the first year of the Republic. Chang Tso-lin, once he had "used" Sun, would crush his ideals and dispose of his personality as ruthlessly as did Yuan Shih-k'ai. Sun, of course, would like to do some of this ruthless work himself.

Sun has always been the unfortunate kicked out into the cold. His falls have ever been the direct result of his unfortunate alliances. Being such a poor double-crosser, it would seem that he would do better to limit his alliances to those into which he can enter wholeheartedly and sincerely. Here, again, however, is a difficulty, for he is so constituted as to be unable to make the necessary compromise and readjustment of ideas and responsibilities implied in a partnership.

* * * * *

Never did the chieftains of the country have less light upon what policies are best calculated to further their several ambitions. Sun Wen is flirting with two suitors—a policy which cannot be pursued indefinitely; Wu Pei-fu is wondering whether he dare further cross his rival Chang Tso-lin in view of Sun's threat upon his rear and the dubious allegiance of the Yangtsze Tuchuns; Chang Tso-lin is wondering whether he can count on Sun Wen's offensive and the desertion of Wu Pei-fu by these same Tuchuns; old President Hsu is wondering if his talent for patchwork is failing him at last. Each one is keeping the others guessing. The Chinese politician gets nervous over a prolonged deadlock of this sort. He instinctively looks for a scape-goat whose sacrifice will ease the situation.

The scape-goat is not easy to find. The old President is the only available candidate and he is a bit too wily to allow himself to be led to the slaughter. However, he has his moments of depression, at which times he thinks of sacrificing himself. Yesterday, after Dr. Yen had again declined to take the premiership, even in *dai-li* capacity, and the Cabinet, owing to the absence of all but three members, had been unable to meet, President Hsu sent a most forlorn message to Minister of War Pao Kwei-ching stating that if a solution were not found within two weeks he would leave the President's palace.

Some hope exists that the arrival of Alfred Sze, Wellington Koo and Wang Chung-hwei, now reported to be hastening back to their native land from the Washington Conference, will have a refreshing influence. Just how, is difficult to see, although they may be able to stir up a sort of anxiety to get the house in a semblance of order before the arrival of the international commissions who are to report upon the renunciation of foreign privileges in China.

Experts Decry Force As Cure Of Social Ills

BY EARL L. SHAUB

Chicago, Jan. 28.—Reformers will let the prodigal public try everything once and get enough of it if they follow the advice given here by students of social conditions.

"The reformers have an idea we can prevent vice by legislation," said Maurice Gregory, head of the Friends' Association for the Promotion of Purity. "The prodigal son tried all the vices and he was jolly glad to get back to his dad."

"Trying to stamp out social maladies by force is like trying to mend a watch with a sledge-hammer. It simply can't be done. The idea that vice can be suppressed by suppressing the woman is radically false. There is no morality where there is injustice."

Dr. E. H. Pratt, physician, takes a similar view.

"Don't try to legislate away cigarettes," he said. "Cure the nerve forces that create a demand for cigarette. Don't stamp out appetites. Make them your servants. Don't talk about sensuality. Convert it into spirituality.

"Every evil force can be converted into a power for good. A lily can grow out of a mudhole. For twenty-five years the reformers have been diagnosing the ills of the world. It's time to do some constructive work and quit talking.

"They talk about the 'menace of the movies' when they ought to be putting the right movies into the schools and churches."

Following this Mr. Gregory gave his views on birth control, and said there was no cause for alarm in the spread of birth control propaganda.

"Genealogical charts," he said, "show that large families run in cycles. There are periods of fertility and non-fertility, and these are governed by natural laws.

"Luxury and prosperity mean smaller families. When Uncle Sam was lean he had more children than he has today when he is fat. Australian sheep herders tell us the same principles apply to their stock. 'We can't get lambs,' they say, 'by breeding on rich pastures.'"

Parachute Gun

Experiments are being made at the London Terminal Aerodrome, Croyden, and at the coastal air junction at Lympne, Kent, with a gun which shoots a parachute, under which is suspended a smoke bomb, into the air.

The experiments are taking the line of providing airmen with a guide to the position of the aerodromes. Beneath the parachute a magnesium flare is suspended, which lights automatically as the parachute opens out, providing a light which can be seen for many miles. In the daytime, bombs containing dense black smoke take the place of magnesium flares.

HANGCHOW LINE DELAYS

Editor, THE CHINA PRESS

Dear Sir: I returned from Hangchow by the 1:50 Express on February 25. At Hangchow Station the train was delayed some 10 minutes on account of a private car being arranged for the *friend* of a certain foreign engineer of the railway and further delay was caused at Loongwha Junction where part of the train was removed and the private car for the engineer's friend detached and reconnected. In addition another delay of 45 minutes occurred at Siccawei Station where the train had to stop till the 7:15 Night Express passed there and upon enquiry I was informed that the Line had been blocked up by a private car of another foreign engineer who was said to be going to inspect his new quarters now under furnishing in the vicinity.

You just think of the loss to those who had not a bit of time to waste.

I doubt if engineers in Europe are allowed to use a private car so freely as they do here.

As people often complain of the delay of the Hangchow trains and condemn the ineffective management of the Chinese railways it would be unjust therefore to lay the whole blame on the Chinese as for causes of unnecessary delay as stated above.

I shall bring this matter to the notice of the Ministry of Communications when I return to Peking. Yours very truly,

K. W. ZOONG.
Great Eastern Hotel, Shanghai.

[Editor's Note: The foregoing was submitted to the Traffic Department of the railway mentioned, which furnished the reply herewith]:

Editor, THE CHINA PRESS

Dear Sir: I am obliged to you for giving me the opportunity of seeing the foregoing complaint before publication.

The facts are as follows: A private car was attached to the train at Hangchow for a Chinese funeral party, which caused a delay of 7 minutes only, and not some 10 minutes as stated. The Engineering Department of the Railway had nothing whatever to do with the arrangements for this private car. Owing to the engine losing time the train was 17 minutes late on arrival at Lunghwa Junction, and an extra 3 minutes was taken to attach the car for the funeral party to the Shanghai North portion.

In the ordinary course, the train arrives at Shanghai North five minutes before the Night Express is due to leave, but on this occasion it was held at Siccawei 34 minutes (not 45 minutes) to allow the latter, which is the more important train, to cross.

Had the engine not lost time throughout the journey the driver could have made up the delay caused by attaching the private car, and have arrived in Shanghai on time. The revised train service which came into operation on February 1 is a considerable improvement on the old one, and generally the trains are keeping much better time, but there are exceptions brought about principally by engine troubles. Yours faithfully,

C. L. G. WAYNE,
Traffic Manager.

HOIHOW COLLISION CASE

Editor, THE CHINA PRESS

Sir: I am requested by my Committee to draw attention to the comments passed by Judge Skinner Turner in his summing up of the above case, which comments appeared in your issue of February 24 last under the caption of "An Unsatisfactory Feature." Four account quotes the learned judge as observing, "She (the Hoihow) slowed down, but on a report that two men were safe or practically so, she went to her wharf: thus clearly infringing the provision of the Merchant Shipping Act 1894."

With all due deference to the learned judge's summing, I am to state that my Committee and members cannot accept his ruling that the provisions of the Merchant Shipping Act were contravened. It is admitted that the Hoihow slowed down, that the master received a report from his officers that the two men who comprised the crew of the cargo boat were safe, and that no further assistance could be rendered the cargo boat itself. The master was therefore justified, according to Section 422 of the Act (which is presumably the section to which the learned judge was referring) in proceeding to his berth.

Judge Turner further observed, "it was the duty of the steamer to stop, and see what help was wanted." As again the judge probably gathered his opinion of the steamer's duty from Section 422, a review of that section fails to discover the word "stop" or provides for a colliding vessel being compelled to actually *stop*. The section contents itself with expressing that each vessel shall "stay by" the other vessel in case of collision, which term my Committee and members cannot accept, by any stretch of imagination, as being reconciled to "stopping." The Hoihow "stayed by" the cargo boat until the master was satisfied he could not render further assistance; he was therefore, according to the Act justifiably entitled in proceeding to his berth.

It is understood that my Committee and members do not, in any way, question any of the evidence, or the award of the judge in this case, but they do desire to submit that the judge has failed to interpret correctly the section of the Merchant Shipping Act relating to colliding vessels.

There is, however, another aspect of the case with which my Committee and members are concerned, I refer to the personnel of the Assessor. Whilst my Committee and members disassociate themselves entirely from any imputation reflecting other than creditable on the services rendered during the hearing of the case by the navigating officer of H.M.S. Cairo who sat as Assessor, I am to state that the inclusion of a certificated shipmaster or licensed pilot as an aid to the Assessors in subsequent enquiries of a similar nature and where the professional interests of a shipmaster are involved, would be more satisfactory to all parties.

The navigating of a cargo vessel in rounding the Gardens bend, is a totally different proposition to the handling of a man-of-war; this for obvious reasons which are apparent to practical seamen. On ordinary occasions, with an open fairway, it requires particular care, but should the maneuver coincide with the exit from Soochow Creek of boat trains and the usual number of junks and cargo boats, the loadahs of which consider it "good joss" to cross an oncoming vessel's bows (in defiance of sound signals) then such task becomes a positive nightmare and danger. My Committee and members therefore consider it advisable that the services of a local shipmaster or licensed pilot, whose *practical* knowledge of the river could not be denied, and who therefore would be invaluable acting in an advisory capacity to the Assessors, be availed in future similar cases, which inclusion my Committee and members venture to assert, would be favorably regarded by all parties concerned, including the litigants.

In conclusion a reference to the Soochow Creek entrance and boat traffic may not be out of place. The time is long past when serious consideration should have been given this vital question and a definite line of action taken by the authorities concerned to regulate the traffic in some way. On all states of the tide boats emerge from the creek, their objective mostly the Pootung side or shore, the persons in charge of such craft being either deaf, impervious or immune to all sound warnings from oncoming steamers, either by syren or whistle or the profane punctuated phrases from the officer stationed on the steamer's bow. There is seemingly no control over these mosquito craft, the River Police force being either inadequate or engaged in other duties. The widening of the Bund Gardens at the expense of the Creek would not seem to improve the stuation and unless the whole question is taken in hand with a view to definite action in the near future, the Hoihow case will be a precursor of many others. There is seemingly nothing in the Harbor Regulations imposing any navigational obligations on these small craft and whilst it would be obviously one sided for steam vessels to arrogate to themselves priority of way at all times, a satisfactory adjustment of the problem can be arrived at, a suggestion perhaps which the local Chambers of Commerce would afford their attention.

SUPER-DURABLE FLAT PAINT
FLAT WALL FINISH

A perfect Paint of smooth surface for Interior Wall Coating

The surface obtainable with this paint is smooth and flat, i.e., it is not a grainy, dead, lifeless finish, but of a velvety texture. It dries in a reasonably quick time, so that work can be carried out effectively, yet has the property of remaining open long enough to enable the worker to cover a large surface of wall without making laps or edges.

Excellent results with Super Durable Flat Finish are easily obtained, irrespective of the skill of the user, and an elaborate preparation of the surface is usually quite unnecessary.

Super Durable Flat Finish has been tried on non-absorbent surfaces of all kinds and where distemper and oil paint have proved prone to shell or flake off, it has always adhered. It gives a lasting finish of surprising beauty.

1 Imperial Gallon covers about 130 square yards one coat.

WILLINSON HEYWOOD & CLARK LTD

The Week's Market Report

In their weekly report on the Shanghai Piece-Goods Trade, Messrs. Noel, Murray and Company write as follows:

Cotton.—In the latest mail advices, all the talk was centered around the size of the next crop of cotton, as the time approaches when the farmers have to make up their minds as to what they are going to do with their land during the coming season; with fair prices ruling, the general opinion seemed to be that a large acreage would be prepared for cotton growing. The Budget that has been published for India this year is somewhat alarming, as it provides for a 5 percent duty on Cotton Yarn, 15 percent on Cotton Piece Goods and 30 percent on Silk Fabrics.

Local Market.—Except for the very welcome clearance that has been in progress, this market has become flat and lifeless; as regards prices it is actually lower today than it was after the opening in February. The strike situation this week is worse than ever and visitors from Hongkong with the utmost assurance speak of it as being a political movement, and unfortunately it is now threatening to spread to this neighborhood. In Hongkong it has lasted for two months and is now being joined by the domestic and hotel servants, butchers, bakers and others. The questions are, how are all these people able to exist for so long without wages, and who is financing the movement?

Financial.—Troubles with the various Exchanges are almost daily occurrences, failures, suicides, embezzlements and inability to settle up transactions on arrival of the due date, make up a formidable catalogue and such happenings naturally have an influence on legitimate business.

Yarn.—After the big transactions reported during the last few weeks it is only natural that there has been little done this week. No sales of Indian spinnings have been made and of Locals 1,800 bales have been sold by the Nay Wei Mills and the retailers, have taken 5,500 bales.

Auctions.—48,652 pieces were sold this week and from all appearances the market is lacking in strength. It was thought that Grey Shirtings were wanted and quantities were increased accordingly, but the result was disappointing.

ROSENFELD AND SON

Messrs. A. B. Rosenfeld and Son write as follows in their weekly report on the cotton market:

China Cotton.—The market during the past week has been very nearly featureless with fluctuations of little importance. Meanwhile there seem to be indications that strong outside interests are slowly accumulating forward contracts in sympathy with the heavy decline in "Silver" and shortage of the China crop.

It is noteworthy of the situation and one which attests the independence of planters that, in the face of a crop shortage and during a period of disturbed financial conditions and curtailed credits, farmers have been able to hold back a large portion of their crops. Some of this cotton is being sold right along but the bulk will probably not be moved freely except at somewhat higher prices. Good buying by mills will no doubt turn the tide quickly, and for that reason we rather think that any further break caused by the March liquidation, might be taken advantage of to buy a little cotton, with the intention of buying more on a scale down if the exact low point should not be struck. After such a break there will probably be a period of "wabbling" market but we think the next move of importance will be upward.

Yarn.—Although the yarn market was easier during the past week, due to speculators trying to bear the markets, the situation in general has not undergone any decided change and the strong trade interests continue to dominate the situation.

SPUNT AND COMPANY

Messrs. J. Spunt and Company write as follows in their report on the cotton market:

China Cotton:—The developments in our market during the past week showed no change in the fundamental conditions and prices may be said to continue steady, notwithstanding the negligible demand for the raw product. Consumers appear to have adopted a waiting policy absorbing only small parcels at favorable rates and as are necessary for their immediate requirements, otherwise there has been so far no active demand for either the local or foreign staple.

Mid-Americans may be said to have continued on the whole steady throughout the week under review, and while Indians have gradually declined, such was counterbalanced by the prevalent lower rates—all of which circumstances when taken into consideration would indicate at this time the bullish phase of the situation should any strong demand arise in the immediate future. Tone of the Market, Steady.

LACE MARKET

Messrs. Industrial Export (China) Company write as follows in their report on the lace markt:

There has been very little change since our last report. Small orders are being placed, and prices of Filet Laces are unchanged at 1.8 per hole. There is practically no demand for Irish Crochet Laces, and prices are as last reported.

JUTE FABRICS

Mr. J. A. Fredericks writes as follows in the jute fabrics circular of last Wednesday:

During the fortnight under review, business has been confined (1) to Heavy C's 2½ lbs. greenstripe, in which parcels changed hands at prices ranging between Tls. 198 and Tls. 215 per 1,000 bags at the latter of which prices it would be difficult to buy as Shanghai, with the exception of about 100 bales is entirely denuded of stocks; and (2) to Hessians, stocks of which also are rather low, in which business has been done at Tls. 85-89 per 1,000 yards. Apart from the scanty stocks, prices have gone up in Calcutta while exchange has been going down-two influences acting in favor of higher prices. Heavy C's 2¼ lbs. bluestripe are very much neglected, there being some weak dealers ready to sell at Tls. 160 whereas it would cost fully Tls. 185 to repace sales. Prices in Dairen are even lower than here.

Chinese-Foreign Famine Relief Committee Reports

The Chinese-Foreign Famine Relief Committee of Shanghai, which has charge of the work in the provinces of Anhwei, Kiangsu and Chekiang, reports progress as follows:

A grant of $67,000 has been made for use in the construction of a road—using famine labor—between Chinkiang and the hot Springs, outside Nanking. Of this amount $5,000 is to be given in grain. A strong committee has been formed at Chinkiang to carry through this project, the road is already surveyed and work has commenced.

To the sub-committee at Yancheng the local committee has sent 200,000 pounds of lowest grade wheat-flour, and it is planned to feed at least 12,000 people in the Yencheng, Batu and Funing areas for four months, using famine labor on local works.

Three thousand bags of flour have been shipped to the Taichow Sub-Committee. This will feed ten thousand people for about 25 days.

The Committee here is forming a Sub-Committee for the Tsingkiangpu and Hwaian areas and proposes to give relief to the extent of about $50,000. Soup-kitchens will be established for women and children, and relief works commenced for the utilising of the famine sufferers able to work.

SUFFERING NOT OVERDRAWN

Mr. R. W. Vandergurgh, who has made a journey through large sections of North Kiangsu, reports that the actual famine conditions have not been exaggerated. In Northeastern and Northeastern Kiangsu, as well as in parts in the region of Taichow, while the people are not actually starving to death now, the indications are that many will starve in the coming months unless they receive help. With floods, robbers, and profiteering to contend with, their lot is well nigh hopeless. Depots established in the most needy centers where grain may be bought at cost, would do away with the profiteering, and a steady administration of a moderate amount of help during a period of several months would save the situation.

In the Antung section—Northeast of Tsingkiangpu—there are thousands in dire need, and the Chinese Foreign Famine Relief Committee is arranging for a distribution of $10,000, nine thousand dollars of which will be given in grain. It is of interest to know that this is the section which a year ago contributed a large quantity of sweet potatoes from their surplus crop, to assist the famine sufferers in North China.

The Committee is purchasing 2,000 tons of Saigon rice for the feeding of the people in the famine areas of North Kiangsu.

ANHWEI PROVINCE

The relief work carried on in Anhwei largely centers around the work of the Pengpu Committee of the Anhwei International Famine Relief Commission, whose headquarters are at Anking. Roads from Pengpu to Hwaiyuan, and from Hwaiyuan to Mencheng, are sanctioned and other relief projects are under consideration. The Shanghai Committee has sent large supplies of grain from here and also purchased supplies of Kaoliang from Manchuria, and relief, through the International Famine Relief Commission, has been afforded to the extent of $400,000.

CHEKIANG PROVINCE

Famine conditions such as are known in Kiangsu and Anhwei do not at present exist in Chekiang province, but there is undoubted distress in large sections of the province and unless something is done to prevent the recurrence of the floods of a few months ago, serious conditions will arise this summer. Funds have been allotted to this province from the Customs Surtax and the International Committees in Chekiang are planning prevention measures, in deepening of canals and building of walls and dykes etc., work, which if carried through, will make conditions livable through the summer.

CONSERVANCY WORK

The Shanghai Chinese-Foreign Famine Relief Committee is attempting, in conjunction with other public bodies, to secure a permanent endowment fund, the interest of which will provide for competent engineering surveys and reports on a workable scheme for conservancy work dealing with China's two great sorrows, the Yellow and Hwai Rivers. If some kind fairy granted two hundred million dollars for this work now, there is no data available to enable any sound scheme for Conservancy work to be carried out, hence the paramount need for a proper investigation, and the framing of plans for dealing with the cause of nearly all of the famines of China.

Exchange Fluctuations

Asia Banking Corporation

March 3, 1922.

Spot bar silver was down ¼d. and forward unchanged in London yesterday. The New York price declined to 63 cents, and the London-New York cross rate to 442½.

The official rates here today were unchanged from yesterday but, as the market was very firm throughout the morning, the Sterling rate was raised to 3-1, the Gold Dollar rate to 68¾, the Franc rate to 745, the Rupee rate to 243½, and the Yen rate dropped to 69¾. The market again was firm today, business in Sterling at one time being done as high as 3-2 for March, 3-1⅞ for April and 3-1¾ for May.

Gold Dollars werre done as high as 70 for March, 69½ for April and 69¼ for May. Late in the afternoon, however, rates eased off slightly with good buyers at the above quotations and sellers at about ¼d. lower for Sterling and ½ point down for Gold Dollars, the market at that time being uncertain.

China sold a small amount of Silver in London yesterday and Indian bazaars bought. The market closed uncertain. New York still report their market as on the easy side, with sellers, particularly for forward delivery.
